**March 31, 2020**

Dear Members,

We miss all of you and plan to see you soon! At this point, we don't know for sure when that will be. We are grateful to have the opportunity to continue providing important community services.

I would like to thank our YMCA staff who continue to provide front-line support to kids and families at our Davenport Early Learning Center and our Bettendorf school-aged site. We have informed our community partners including first responders, health care workers and essential employees that we would use our resources to continue helping serve this important need. We are following all state guidelines.

**YMCA Without Walls** - This is a challenging time for everyone but we will get through it as a community. This is what our staff is presently doing:

- Daily Online Classes by Our Instructors
  - Yoga
  - Family & All Ages Fitness
  - Gymnastics
- Youth Outreach phone calls to help at-risk teens with basic services
- Maintenance staff are deep cleaning, disinfecting, painting and regrouting several of our pool areas and aquatic centers.
- Exempt staff have cleaned our facilities and painted areas that needed it
- Collaborating when possible to provide additional services, such as a blood drive coming to our local YMCAs

We all can help! Your support, in any and every way, helps our Y continue to maintain a strong community for all!

Thank you!

Sincerely,

**Brad Martell**

President/CEO, Scott County Family Y
